PRINT FINISHING SYSTEMS AND SOLUTIONS

ISSUE 58

Founded in 1953 we are constantly rebuilding, repairing and reconditioning quality bindery and print finishing machinery from leading manufacturers, and can offer a collection of services and facilities unmatched with over 50 years established experience. We offer total flexibility from routine service work to rebuilding complete machines. A comprehensive range of new bindery and print finishing machinery is always available from leading manufacturers and as appointed sales/service agents we offer an installation and after sales service using our own engineers and facilities. Our **FOILMASTER** manufacturing program offers hot foil stamping system solutions for the Heidelberg platen and cylinder presses.

The precision regrinding and supply of Flat and Rotary knives and

Punching Dies in all qualities provides a specialist service to our customers with agencies for **FASSCO** quality steel, **SCHONENBERGER** carbide knives and **STAMFAG** precision punching dies. Our printers supplies department offers a comprehensive range of consumable supplies for press room and print finishing departments with many market leading brands available. Other products are the excellent range of **LEIBINGER** numbering machines, **SUMBEL** gluing and adhesive coating machines, **OMM Marchetti** Drilling and Bindery Machines and **Rollem** Perforating, Scoring and Slitting Machines.

While still retaining the qualities of a family owned independent company we offer an unbeatable combination of products and services for the printing and allied industries.
