

FOR THE PROFESSIONAL FINISH

**NORMAN HAYNES LTD.**  
*Printers Engineers and Suppliers*

# Company Profile

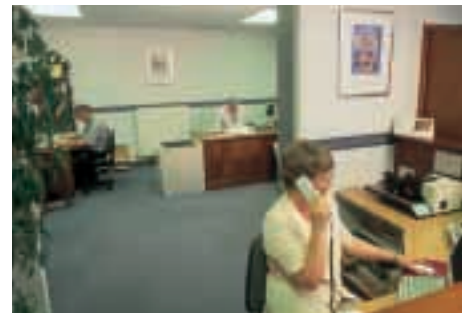

Founded in 1953 we are constantly supplying, reconditioning and servicing quality print finishing machinery from leading manufacturers and can offer a collection of services and facilities unmatched with over 40 years established experience. We also probably hold one of the largest stocks of this type of machinery in the UK with most available immediately. Our mechanical and electrical engineers can offer total flexibility from routine service work to rebuilding complete machines. A comprehensive range of new bindery and print finishing machinery is always available from leading manufacturers and as appointed sales/service agents we offer an installation and after sales service using our own engineers and facilities to complement the manufacturers' support. Our **'Foilmaster'** manufacturing program offers hot foil stamping systems for the **Heidelberg** platen press.

The precision regrinding and supply of guillotine and trimmer knives in all qualities provides a specialist service to our customers with agencies for **Zanogen** steel and **Schonenberger** carbide knives. Our printers supplies department offers a comprehensive range of consumable supplies for press room and print finishing departments with many market leading brands available. Another addition to our portfolio is the excellent range of **Leibinger** plunger operated and rotary numbering machines for all sheet fed and web presses.

While still retaining the qualities of a family owned independent company we offer an unbeatable combination of products and services for the printing and allied industries with particular attention to the specialist requirements of print finishing companies and departments. We consider our company is truly **'For The Professional Finish'**.

# New and Used Machinery Sales

*Quality, Service and Price*

An unbeatable blend of new and used quality print finishing machinery is always available from stock. Popular machines including guillotines, folders, stitchers, collators, paper drills, numbering and perforating machines and many more are all represented from leading manufacturers. British manufactured folding, numbering and wire stitching machines are supplied from new. A comprehensive range of new machinery has been carefully selected to combine the latest technology with quality engineering, reliability and value for money.

A separate stock list is available for all new and used machinery.

Most used machinery is offered as factory rebuilt by our experienced engineers, although machines can be also offered as factory cleaned and serviced if required.

## *Leibinger Precision Numbering Machines*

We would like to introduce our company as the Manufacturers appointed UK distributor for **Leibinger Plunger Operated, Centre Drive and Rotary Numbering Machines.**

Our commitment to the supply and service of these machines offers competitive pricing with technical and service support specialists on hand to respond to your enquiries. You may already be aware that Norman Haynes Ltd. purchased the business of **Caxtonia Ltd.** of Leicester who were the **Leibinger** plunger operated machine agents in the UK and we will continue to offer the same **quality of service and support to all customers old and new.** From our Bradford factory we can offer a comprehensive stock of machines and parts with a service and repair facility including technical support when needed.

We know **Leibinger** quality speaks for itself, but we can now offer this prestige product from probably the world's leading manufacturer to a wider range of users.

## Regrinding and New Knives

Norman Haynes Ltd., specialise in the supply and regrinding of all Steel, High Speed Steel and Tungsten Carbide Knives used in the printing and allied industries. We offer usually from stock a range of popular knives in all qualities. We are the appointed Northern distributors for **Schönenberger** Tungsten Carbide and **Zanogen** steel and high speed guillotine knives. Our experienced and knowledgeable staff can advise and assist in providing the correct blade for your application with prompt delivery, competitive pricing and an after sales service second to none.

We offer a speedy and efficient regrinding service to the Printing, Converting, Engineering and Plastics Industries. Our modern machines are operated by experienced and skilled staff and all blades are hand finished and inspected.

We can offer a precision regrinding service and the supply of new knives for:

**GUILLOTINE KNIVES**

**TRIMMER BLADES**

**SHEETER KNIVES**

**SHEAR BLADES**

**CIRCULAR CUTTERS**

**GRANULATING KNIVES**

**Schönenberger**

PREMIUM QUALITY TUNGSTEN CARBIDE KNIVES

**Zanogen**

XL STEEL AND HIGH SPEED STEEL KNIVES

## Engineering Services

At Norman Haynes Ltd., we can offer an extensive range of mechanical and electrical engineering services. From routine service and repair work to full machinery rebuilds. We can provide a flexible and professional approach to all your engineering requirements. All engineers are time served fitters with an extensive knowledge of the printing industry. Machinery transportation and relocation can also be undertaken using our own wagon with lifting facilities.

### *The Heidelberg Platen Specialists*

Our knowledge and experience on the Heidelberg T and GT range of platen presses is hard to match. We offer simply the best range of machines and services in the UK. From fully factory refurbished presses to routine service work we offer a service for all requirements.

### *Foilmaster*

Our 'Foilmaster' manufacturing programme offers equipment, materials and techniques specifically designed to meet the diverse and demanding requirements of the foil stamping and embossing industry.

Our policy is to solely concentrate on the popular Heidelberg range

of platen presses and

offer quality foil printing systems to meet the individual requirements of each customer.
