

Dear Sirs,  
we would like to draw Your attention on what has been by us carried out during year 2003 and added to our pricelist in January 2004: A NEW RANGE OF PERFORATING COMBS.  
These items - on the attached file You can find shapes and the relevant codes - are designed to be fitted on our NEW Equipments mod. Endeavor Semiautomatic art. 0275 and mod. Modular Automatic Endeavor art. 0275/A.  
Consequently, they can be also fitted on all our Mariner, Mariner 2, and Voyager machines.  
We believe that the new accessories, which have been already requested from many of our Customers especially for the Endeavor machine, may also meet the interest of Your Company.  
For more detailed information please do not hesitate to contact us.  
We thank you for Your usual kind cooperation and look forward to hearing from You soon.

Best Regards  
Marchetti srl
