

Rollem Auto4

The most accurate way to number, perf, crease and slit.

Rollem

Auto4 designed the Rollem way for reliability, to stand the test of time.

Who you buy from is as important as what you buy, and at Rollem we've found the easiest decision you can make is sometimes the most profitable.

The Rollem Auto4

With just one machine, you can offer your clients complete accuracy with simultaneous numbering, perforating, creasing and slitting in just one pass, the machine to do all this is the Rollem Auto4.

High Return On Investment

Put profit where it belongs - in your pocket.

With a Rollem Auto4 there's no out-sourcing so there's no late or imperfect work to jeopardise your delivery commitments - you're in complete

control ... and on time, for your greater satisfaction and repeat business.

Don't be taken in by other manufacturers who offer these functions as mere attachments. The Rollem Auto4 is a dedicated numbering and multi-numbering, scoring, perforating and slitting machine designed the Rollem way for reliability, to stand the test of time. With tough engineering, solid construction, unwavering accuracy, unbeatable high speed and minimal low maintenance (plus a great resale value) the Auto4 has Rollem manufacturing quality written all over it and what's more it's an ideal partner for the high street or an accompaniment to a digital printer.

Ease of Use

Amazingly simple!

With its innovative technological design

and easy-to-read

controls, the Auto4

means entry level

personnel can

perform all Rollem

Auto4 operations.

Effortlessly.

Numbering, multi numbering & platten crease - Rollem Auto4 meets the challenge with ease.

As with all Rollem designs, dependability, ease of operation and durability are key features of the Auto4.

Speed

The Rollem Auto4 gives you more flexibility to help you become more profitable and productive than ever before. Number up to 6,000 sheets per hour.

Score, perf and slit up to 15,000 sheets per hour.

You can platten crease or perf at speeds up to

6,000 per hour. Rotary micro-perforate at speeds up to 15,000 per hour.

All this, plus the added advantage of the quickest changeover to minimise the down time and keep stock moving.

The Rollem Auto4 can also take up to SRA2 sheet sizes.

Expedience & unmatched accuracy
