Sumbel

Sumbel - Gluing Machines

Model ENANO

Single roller Gluing Machine for paper, labels etc. motordrive 230 V. AC. or other voltages.

Working size: 150, 250, 350, 400 mm

Options:

- additional pressure rollers for thin carton, filled envelopes etc.
- adjustable speed
- glue roller and glue tray in stainless steel.

Model CORONA

Gluing Machine with automatic feeding of label etc., adjustable speed, motor drive 230 V. AC. or other voltages.

Working size: 150, 250, 350 mm

Options:

- single label attachment
- additional attachment for extra long labels
- glue roller and trays in stainless steel

Model ROLAND / HEROLD

Two roller Gluing Machine for cold and hot glue, adjustable speed, motor drive 230 V. AC. or 400 V. DC other voltages on request.

Working size:

Model ROLAND: 200, 250, 350 mm

Model HEROLD: 500, 650, 800, 1000, 1200 mm

Mod. ROLAND 200 with pressure bar attachment

Additional Attachments:

- pressure bar attachment for cardboards etc.
- strip- and edge-gluing attachment
- creasing attachment
- glue rollers and glue tray in stainless steel
- glue circulation pump

Sumbel - Gluing Machines

Model SENATOR

Two roller Gluing Machine for topside glue application, inclusive pressure bar attachment for carton etc. adjustable speed, motordrive 230 V. Ac. or DC motor.

Working size: 350, 500, 650, 800, 1000 mm

Options:

- with 3 m conveyor belt,
- hot glue processing,
- rollers and glue tray in stainless steel,
- glue circulation pump,
- Vacuum conveyor belt.

Sumbel - Edge Gluers

Model PERKEO

Single roller Edge Gluer for paper, cardboard, leather etc. adjustable working size from 2 mm upwards, motordrive 230 V. AC or other voltages.

Working size: 60, 90, 120, 150 mm

Options:

- adjustable speed
- stainless steel rollers

Model CORONEL

Two roller Edge Gluer with adjustable speed, motordrive 230 V. AC or other voltages, for paper, cardboard, leather etc., adjustable working size from 2 mm upwards .

Working size: 60, 90, 120, 150 mm

Options:

- Hot glue attachment
- Stainless steel rollers
- Special roller sizes

Sumbel - Edge Gluers

Model MERCUR

Edge Gluer for top side glue application, cold glue, adjustable speed, motordrive 230 V. AC or other voltages. For paper, cardboard, leather etc. adjustable working size from 3 mm upwards

Working size: 90, 120 mm

Options:

- glue roller and glue tray in stainless steel
- larger roller sizes on request

Sumbel - Rotary Pressing Machines

Model REGENT

Pressing Down Machines for high speed combining of glued materials such as paper to chipboard. Combined material thickness up to 30 mm, uniform pressure, motordrive 230 V. AC or DC or other voltages.

Working size: 500, 650, 800, 1050 mm

Options:

- portable stand

Model BANDERA

Conveyor Belt Press Machine for smooth and fast pressing of folding boxes, cartons etc., adjustable pressure of each of the 5, 7, or 9 pressing stations, adjustable speed, motor drive 230 V. AC or other voltages.

Working size: 500, 650, 800, 1050 mm
