

1. Gluing Machine to apply adhesive onto cover
2. Alignment Table to place boards & spine onto cover
3. Edge Turner folds over edges onto cover

Gluing Machines

Model ENANO

Label gluer applies a cold water based adhesive onto covers. Features glue control and variable speed.

220/230 V. 50/60 Hz.

Working sizes: 150 , 250, 350, 400 mm

Model HEROLD

Gluer applies cold glue or hot animal glue onto covers. Features excellent glue control and variable speed.

220/230 V. 50/60 Hz.

Working sizes: 500, 650, 800, 1000, 1200 mm

Smaller photo shows optional reversing fingers to present covers glued side up.

Alignment Table

The Alignment Table features a tiltable table top, vacuum suction, adjustable spine width, three point alignment system and a center light. For books up to 35 cm square.

220/230 V. 50/60 Hz.

Edge Turner

Turns the edges of the book forming a neat seal. Animal glue requires 1 second compression time. Cold water based adhesive requires 2-3 seconds compression time.

Manually powered without electricity!
