Champion "990"

CHAMPION 990

The most efficient and economical way to PERFORM

the better way

- Variable speed drive
- Micrometer side guide adjustment
- Speeds up to 28,000 sheets per hour
- Heavy duty construction
- No maintenance
- Sheet size from 4" x 4" (10cm x 10cm)
- Available in 14" (35.5cm) 18" (46cm) 24" (61cm) 30" (76cm) 36" (91.5cm) and 42" (106.5cm)
- Choice of 13 different blades, cuts - slots - snap-outs...all interchangeable in same perforating head

The Rollem Champion 990 will give you something better ...in registration, speed, quality and total performance. No machine at any price will produce more for you as economically. The Champion 990 is the world's most popular perforator, scorer, and slitter, it can be supplied also mounted on cabinets or mobile stands

“990”

CUT, SCORE & SLIT.

MODIFIED VERSIONS OF THIS RANGE OF MACHINES ARE AVAILABLE FOR BACK SLITTING AND/OR STRIKE PERFORATING

Auto-Fan-Feed

The most efficient and accurate feed ever conceived. Widest traction drive: 3½" (9 cm) on 14" (35.5cm) and 18" (46 cm) models 10½" (27 cm) on 24" (61 cm) and larger models. Fans the paper automatically while feeding from the bottom of the pile. Operator need not be experienced. Continuous, single sheet feeding of 9 lb. manifold to 60 pt. board; also various fibrous leathered, coated, carbonized, NCR, veloured and plastic stocks.

Patented Head Control

Ensures a perfectly straight perforation, score, slit and/or semi-slit... Maintains accurate on-square register, or off-square register if desired... Each head grips and controls the sheet throughout its entire length of travel. No crimping, tail whip, or run-off. Spring loaded nylon burr flatteners prevent perforation build-up... Self cleaning and moves easily as a complete unit.

Lever Depth Control

Keeps shafts in perfect alignment at all times. Never needs adjustment. Simply lower the arm to obtain precise depth of score while maintaining a clean, complete, and accurate perforation.
